

CAPTURE PROJECT DATA
PRECISELY AND DIGITALLY

DIGITAL MEASUREMENT SHEET

Capture your project data
and measurements digitally
on the construction site.

All information recorded accurately and digitally.

Record measurements in tables and sketches.

Directly from the construction site to your office.

CUSTOM TEMPLATES FLEXIBLE USAGE

With the digital measurement sheet, all essential information, such as customer data, project specifications, and measurements, is recorded digitally. Customizable templates allow for use in various fields, such as:

- Windows & doors
- Awnings, shutters & sun protection
- Shower enclosures
- and more

PRECISE, DIGITAL, ERROR FREE

DIRECTLY FROM THE CONSTRUCTION SITE TO YOUR OFFICE

With the new Solaflex app feature „Measurement Sheet,“ creating, editing, and sharing measurements is easier and more efficient than ever. Customizable templates and direct transfer of measurements from the device to the measurement sheet ensure a seamless transition from the construction site to the office.
